**INDUSTRY BODY
TO FORMULATE
BANK'S POLICY****Action Expected to Be Taken as
Result of Garnishment
Decision****MILLION LOAN IS DUE****Bank of North Dakota's Obliga-
tion to Chicago House
Matures 15th**

The policy to be pursued by the Bank of North Dakota in view of the decision of the supreme court that the bank is separate from the state government and that it is subject to garnishment is expected to be formulated by the Industrial Commission within the next day or two.

Two of the three members of the commission, Governor Frazier and Attorney General Lemke, were not in the city today, but an early meeting of the commission is expected. Many problems of the bank are to be discussed, it is expected. The million dollar loan made by the bank with a Chicago financial house several months ago is due tomorrow. Mr. Cathro said today that no arrangements had been completed with regard to either paying or extending the loan. The action of the bank in the matter is expected to be determined immediately.

Other Obligations. Among the heavy obligations of the bank in addition to this loan is the state apportionment fund for schools, amounting to \$300,000. This apportionment was certified by the department of education on the third Monday in February, it usually being payable the first of March.

Mr. Cathro declined to make a statement as to the effect of the garnishment case on the Bank of North Dakota, until he had time to consider the matter thoroughly. He indicated he might prepare a statement during the day.

An interesting phase of the discussion arising from the garnishment case is whether or not the Bank of North Dakota, if, as the supreme court has decided, the state imparts to it none of its prerogatives, it is taxable under the federal income tax law. A corporation is taxed 20 per cent upon its earnings if they do not exceed 2 1/2 per cent of the capital investment and 20 per cent additional on earnings beyond that figure.

Mr. Cathro said that he did not think the bank was liable to the tax, and if it were, he said, there would be no tax to pay because the income is derived chiefly from tax-free money and securities of political subdivisions.

Say It Hits Banks. It was pointed out by some non-partisans that the decisions of the supreme court might react upon private banks, as counties instituting garnishment proceedings would call upon the local banks to pay the counties.

On the other hand opponents of the bank pointed out that it offered a way for the counties to cease doing business with the Bank of North Dakota and to avoid the order of the Industrial Commission to the effect that checks of counties which do not continue to make deposits with the bank would not be honored.

**ONE-MAN POWER
PLAN IS KEPT
BY GT. BRITAIN****Naval Estimates for Year Based
Upon Supremacy on the
Sea**

London, March 14.—(By the Associated Press.)—The British naval estimates for 1921-1922 amount to 91,188,889 pounds sterling gross and 82,479,000 pounds sterling net. It was announced today by Lord Lee of Farnham, First Lord of the Admiralty. In a statement explaining the estimates Lord Lee said they were based on the government policy of maintaining a one-power standard.

**POST ASSAULTS
RADICAL ARRESTS**

Cleveland, O., March 14.—Most of the arrests for alleged radicals since the war were made by private detectives unlawfully in the pay of the department of justice, said Louis F. Post, former secretary of labor.

**GERMANY PAYS
SHIP OWNERS**

Berlin, March 14.—The Reichstag appropriated four billion seven hundred million marks to repay owners for vessels taken by the allies, making a total of twelve billion marks appropriated for this purpose.

**CUT GASOLINE
PRICE ONE CENT**

New York, Mar. 14.—The Standard Oil Company of New Jersey today reduced the price of gasoline 1 cent a gallon, naming the wholesale price 26 cents a gallon.

VALLEY CITY WINS. Valley City, Mar. 14.—The high school is celebrating today the victory over Fessenden in the district debating contest. The verdict was two to one in Valley City's favor.

**SOLDIERS ARE
CAUGHT IN AN
IRISH AMBUSH**

Mohill, Ireland, Mar. 14.—Thirty men of the Bedfordshire regiment, while receding from Hauleck-On-Shannon to Ballymore Friday evening were ambushed and attacked with rifle fire and bombs. The military returned the fire with the result that six of the attackers were killed and one was mortally wounded. The six men killed were attired in the uniform of the Irish Republican army.

**JUDGE REFUSES
CONTINUANCE OF
BASEBALL TRIAL****Chicago Jurist Orders Another
Hearing in Mat-
ter****CICOTTE, JACKSON TURN
Attorney Says He Learns They
Will Not Be Available as
Witnesses**

Chicago, Mar. 14.—Judge William E. Dever today refused to comply with a motion by the state that the trial of Chicago White Sox players and others indicted for the alleged throwing of the world series of 1919 be taken off the court call. He ordered another hearing for next Tuesday when it is believed a date for the trial will be set.

Attorneys for the defense moved that an immediate trial be held Thursday and Judge Dever said he would announce his decision on this matter later.

Judge Barrett, American League attorney, in pleading for postponement said the prosecution had learned that Eddie Cicotte, Claude Williams and Joe Jackson, who confessed to the grand jury, "would not be available as witnesses."

Consequently, he said, the state could not obtain conviction on the evidence it now had and would have to have time to seek additional data.

'GETS VERDICT.

Mohill, March 14.—Dr. Fitzmorris has been returned a verdict in his favor in the case brought against him by the Northwestern National Insurance company, alleging damages of \$5,000 on a policy alleged to have been issued on erroneous reports.

**FRAZIER UP
FOR CARRYING
CONCEALED GUN****Divide County Clerk of Court
Gets Mixed in Another
Affair**

Minot, March 14.—R. W. Frazier, clerk of court of Divide county, was given a preliminary hearing yesterday on the charge of carrying concealed weapons. C. J. Clark, Crosby banker, signed the complaint.

Mr. Frazier claimed he was carrying the weapons because he had been deputized to transport W. E. Vadnais, former county auditor of Divide, to Bismarck to serve a five-year sentence in the penitentiary. Governor Frazier cancelled the parole of Mr. Vadnais, on recommendation of States Attorney Bratell, who claims that he had not kept his agreement to correct the records.

Mr. Clark alleged that Frazier pulled a gun on him in the Ward county courthouse, during an altercation following denial by Judge Lowe of the writ of habeas corpus asked for by Mr. Vadnais.

Mr. Frazier is the man who got in several heated affairs during the last day of the session. At one time he was ordered out of the house by Speaker Twitchell.

**BUILDING WORK
AT STANDSTILL**

St. Paul, Mar. 14.—Despite a 22 per cent reduction in labor costs and 18 per cent cut in building material, general construction work practically is at a standstill in the Northwest. It was declared at today's session of the Northwestern Association General Contractors convention. Unsettled labor and financial conditions are the cause for inactivity, it was said.

**FILES SUITS TO
COLLECT PREMIUM**

Suits against the Northwestern Telephone company for alleged failure to furnish information required by the Workmen's Compensation Bureau and against the Bismarck Gas Company for alleged non-payment of the compensation premiums have been filed in the Hurleigh district court by the Workmen's Compensation Bureau.

**FARM BUREAU
TO OBTAIN COST
OF PRODUCTION****Willard Has Worked Out Plan
to Get Accurate Figures
on Crops****WILL GATHER STATISTICS****Inventories of Buildings and
Lands Will Be Taken By
Experts**

Fargo, N. D., March 14.—Plans to secure accurate data on the cost of production of farm products in this state are being submitted by the North Dakota Farm Bureau Federation to the county farm bureaus of the state for their approval.

Plan Worked Out.

The plan, which was worked out by Rex E. Willard farm management specialist at the North Dakota Agricultural college, contemplates several men, each of whom will make weekly or semi-weekly visits to 30 or 40 farms in one or more counties and secure the exact figures on cost of labor, board, horse labor, manure, machinery, feed, threshing, seed, treating, pasture, fences, taxes, insurance, management, depreciation and repair of buildings, road work, ditches, waste land, etc.

Inventories will be taken of all property including livestock, machinery, buildings and land, at the beginning and end of each year, and all other figures will be taken which are necessary to accurately determine what each bushel of grain costs the farmer to raise.

Will Have Statisticians. "It is obvious that few farmers are able to keep records of the details necessary to compute costs," declares Mr. Willard "and it is therefore necessary to secure this information by the use of a man to go from farm to farm weekly, to secure the necessary facts."

**LYON FUNERAL
HELD TODAY IN
PASADENA, CAL.****Russell-Miller Mills Suspend Op-
erations for Hour in
Honor**

All of the Russell-Miller flour mills today suspended operations from 1 to 2 p. m. central time, out of respect to H. R. Lyon, vice-president of the company, for whom funeral services were held in Pasadena, Cal., at 11 o'clock, western time.

The body of Mr. Lyon, it is understood, is to be taken from Pasadena to Minneapolis for burial. Mr. Lyon lived in Mandan until about 15 years ago when he moved to Minneapolis.

**NONPARTISANS
IN BED AFTER
KANSAS FIGHT****Two of Them Said to Have Been
Tarred and Feathered**

Salina, Kan., Mar. 14.—C. O. Parsons, a Nonpartisan league worker, said to have been tarred in Barton county Saturday night is confined to his bed here today. J. O. Stevie also said to have been a victim in Saturday night's trouble is also here but it is able to be up.

The heads of both men are matted with tar and they exhibited bruises and black eyes. Details of the anti-Nonpartisan league demonstration in Butler county yesterday and late last night which reached a climax in the escorting from Great Bend of J. Ralph Burton, former U. S. senator from Kansas, and the tarring of J. C. Stevie, and A. A. Parsons, officers of the league, revealed that Stevie and Parsons were compelled to apply a coating of tar to themselves after their clothing had been removed. After they had been forced by the crowd of several hundred men to roll on the ground their clothing was returned and they were told to leave the county.

Burton and Wilson were on their way to Ellinwood, a small town in this county where they were to address a meeting yesterday afternoon. When they did not appear Stevie and Parsons came here to learn what had become of them. The latter pair was then taken out of the city and told not to return. Later when they appeared again in Ellinwood they were taken in hand by the mob and tarred.

PRISONERS!**SICK CHILDREN
LIFE PRISONERS****Little Victims of Chronic Dipht-
heria Dependent on Tube
in Throat**

(By Newspaper Enterprise.)
New York, March 14.—In the heart of New York, overlooking the North River, 26 children play and never say a word that rises above a whisper. These 26 children who know some of them are doomed for life.

These 26 wear 26 gowns of checked gingham they drink from 26 identical white and blue mugs, they sleep on 26 cots as like as peas, and they know that they are liable to be there for the rest of their years.

They are "prisoners." Their crime? Chronic diphtheria!

And their punishment? A little hole cut below "the voice box" in the throat, into which a tube is inserted—so that they may breathe. They seem healthy and happy. They romp about, but it is an awesome, noiseless romping.

Strange, weird call. When they want to be heard very much, they place the forefinger of the right hand over the little hole in the tube, and a hoarse sound, not unlike the cry of some strange bird, issues forth. They then smile—because they know it's "funny."

These children are mostly from well-to-do families. In some cases, however, their families have dropped out of sight, and the child never hears from them.

Over these children a death watch is kept. If one of the tubes slips, if something covers the opening, the child cannot cry out, it can only choke—and die.

So they are guarded as one might guard the most precious orchid. They go to school in the hospital and they spend their summers on a farm in Otisville, near Middletown.

Not Homesick. They are not homesick because they came here when they were babies.

On girl has been here for 10 years. She is about to leave. "But this is my home," she said and tears came into her voice.

Before intubation was discovered, children died from the closing of the membrane, which cut off the air supply.

In the near future, Dr. R. J. Wilson, director of the Bureau of Hospitals of the Department of Health, hopes to have a building erected as a separate "home" for these youngsters.

Dr. E. Giddins says that the prospects for a permanent cure cannot properly be estimated. Some cases have been of 10 years' standing, others recover within a few months; still others seem to have but a slim chance of returning to the outer world.

**GERMANS ASK
LEAGUE'S AID**

Berlin, Mar. 14.—The government has addressed a note to the secretariat of the League of Nations protesting against the penalties being enforced by the entente for Germany's non-fulfillment of her reparations and obligations.

**FIND \$200,000
OF POSTAL LOOT**

Toledo, March 14.—Postal inspectors here today announced the recovery of \$200,000 worth of the loot in the million dollar Toledo postoffice robbery of Feb. 17. More than \$145,000 of the bonds were recovered in New York City, \$27,000 in Detroit and \$14,000 in Philadelphia.

**FIVE DIE IN

The Hague, March 14.—In a book he has prepared for private distribution the former German emperor declares he tried to maintain the peace of Europe for 30 years but was foiled by Great Britain, France and Russia.

**ARMOURS CALL
AN ELECTION
BY EMPLOYES****Plan to Have Committees of
Workers to Discuss Con-
dition****ARBITRATE DIFFERENCES**

Chicago, March 14.—Armour and company today called an election in all of its plants for tomorrow for its employees to select representatives to form an industrial democracy in which employers and employees will have an equal representation to settle all working conditions, wages and hours, in the Armour plant.

The representatives selected tomorrow will form a temporary board which will work out permanent plans. The announcement of the packing company said that it was planned to eventually have a plant conference board of five members in each plant and a general conference board of three members selected from all plants.

The outline of the proposed plan as given out by Armour and company said that when representatives of employer and employees could not be reached the question could be referred to an arbitrator.

Chicago, March 14.—The seismograph at the University of Chicago registered "a slight blur" about 6:14 a. m. today. It was said but it was impossible to say whether this meant an earthquake.

**SHOW STRENGTH
IN WHEAT MART**

Chicago, March 14.—Considerable strength developed in the wheat market today owing largely to a good export buying at the seaboard. Opening quotations which varied from 1 1/2 to 1 3/4 cents higher were followed by reactions from initial figures.

**WITNESS GIVES
HAMON'S STORY
OF HIS MURDER****Quotes Dying Man as Telling
How He Was Shot by
Girl****CROWD IN LAUGHTER****Attorneys Threaten to Demand
Clearing of Oklahoma
Courtroom**

Ardmore, Okla., March 14.—Clara Hamon, defendant, will be the last defense witness to take the stand, her counsel said today. Their list of witnesses numbers only nine, exclusively of impeaching witnesses they may introduce to controvert state witnesses' testimony.

Ardmore, Okla., March 14.—Brett Dunlap, a business associate of Jake L. Hamon, was called as the state's first witness today in the trial of Clara Smith Hamon, charged with Hamon's murder. He said that on Tuesday after Hamon was shot on Sunday night, Nov. 27, the wounded man had said he never would leave the sanitarium until you boys take me out.

"He told me he went over to his room late in the evening, threw off his coat and vest and lay down on the bed for a rest," Dunlap testified, regarding the day of the shooting.

Dunlap quoted Hamon as having said: "I had been there only a short time when I heard Clara come in. She laid her left hand on my head and I felt her right on my shoulder when she shot me."

"Of course, I have been looking for this," Dunlap quoted Hamon as having said.

The reply was objected to and sustained.

"He said he did not have a chance to protect himself; that she walked up to the foot of the bed and shot him," Dunlap further quoted Hamon, after counsel had argued the propriety of the testimony.

Crowd Laughs.

A wave of laughter spread over the courtroom when Dunlap denied that Hamon had presented him the home in which Dunlap lived and Attorney General Bratell said he would not go on the courtroom being cleared at the next demonstration of "hurling."

He said he was not present when Clara Hamon was furnished \$5,000 with which to leave town.

Mr. Dunlap said he had not gone to the county attorney to discuss the case saying "there is nothing to it."

He said he had asked that a statutory charge filed at the same time against Hamon and Clara be dismissed.

Frank L. Ketch, former business manager for Hamon and administrator for the estate, was the next witness called.

**PETITIONS ON
PROGRAM LAWS
WILL BE FILED****Being Sent to Secretary of State
Today, It Is An-
nounced**

Petitions for the initiated "program laws" of the Independents were to be sent from Fargo to Bismarck for filing at the office of the secretary of state today, it was announced in Fargo.

More than 40,000 signatures were obtained to the petitions. It is said about 12,000 signatures were to accompany them. The required number is 10,000. It was explained that the time in which to get the signatures was very short.

The Committee of Twenty-one is proceeding with its plans for the convention to be held at Devils Lake, March 30 and 31. This convention, according to the committee will decide the question of a recall. If there is no recall election an election to vote on initiated laws can be called only by the governor.

The district conventions for the purpose of selecting delegates to go to Devils Lake are to be held March 23. The district conventions are to take up the question of the recall of legislative members in the various districts. The fact that recall petitions are being circulated, does not necessarily mean there is to be a recall, it is stated.

**COMPANY ASKS
INCREASED RATES
IN SIX TOWNS**

The Central Power company, of Washburn, N. D., has filed with the railroad commission an amendment to its application for an increase in rates. The company asks that the minimum on power rate be made 41 per horsepower per month as the minimum charge, and that a five per cent discount on all bills paid before the fifth of the month be granted. The company's application for an increase in rates affects Washburn, Underwood, Colchabar, McClusky, Max, Turtle Lake and Mercer.

Emblem of Satisfaction

FOR years the demand for Buick cars has always exceeded the supply—even when Buick production mounted to 500 cars daily.

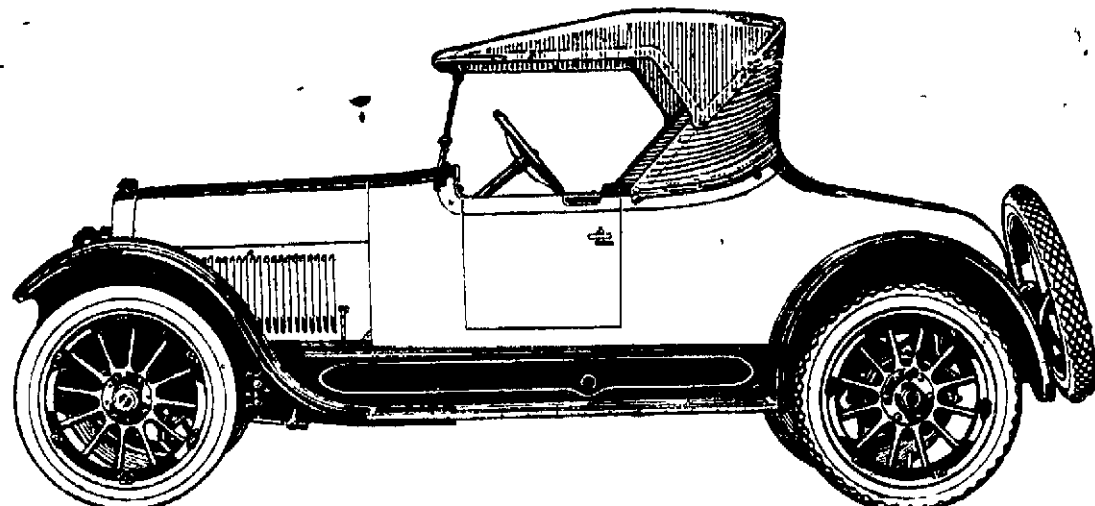

Because of the material curtailment of motor car production this winter, the country faces a decided shortage of quality cars this spring and summer. Consequently Buick dealers are advising motorists to place their Buick orders now because orders must be sent to factory

months in advance of delivery. The reason why the demand for Buick cars has always exceeded the supply is more pronounced than ever in the 1921 Buick. Coupled with the noted Buick power and dependability are added riding comfort, easier control and a beauty and grace that fittingly express Buick worth.

Consider Its Price

Compare It With Other When You Measure Their Quality with Essex.

Men no longer accept the doctrine that higher priced cars mean correspondingly finer cars.

Of special interest is a price to price measurement of the Essex against cars you have always judged in its quality class. Its advantage shows surprising margins when viewed thus.

Will you find any car of comparable quality and ability within hundreds of dollars of the Essex class?

And doesn't its low cost with such quality appeal to judicious buyers, whether they are considering a car slightly less in cost or have been seeking Essex quality in some much costlier car?

RESULTS REMARKABLE SAYS NEW YORK MAN

Prominent Rochester Citizen
Tried Ten Years to Get Relief,
But Tanlac Is Only Thing That
Helped Him

One of the latest to testify regarding the powers of Tanlac, the celebrated medicine which has been accomplishing such remarkable results is James J. Beasley, 102 Elmwood Avenue, Rochester, New York. Mr. Beasley has been chief record keeper for the Department of Water Works, city of Rochester, for thirty years and is a well known and highly respected citizen. In referring to the remarkable recovery of his health by the use of Tanlac, Mr. Beasley says:

"I have been trying for ten years to find relief from a case of dyspepsia. Nothing ever helped me to amount to anything until I got Tanlac. This is saying a great deal, for I did everything it seems that a man could do to find relief. Of course, I was hardly ever sick enough to go to bed and was most always able to keep going, but I just never felt right. At times during those ten years, my stomach would become sour like vinegar. I would have an uncomfortable bloated up feeling after eating that would last for hours. I suffered a great deal from nausea. At times my heart would flutter and palpitate and I would become alarmed over my condition. My nerves were on edge all the time, and I became irritable, nervous and restless. I had no strength or energy to do anything. In fact I wasn't like myself at all. Even a week or two ago it was an effort for me to get out of my chair and I felt as stiff and clumsy as an old work horse."

JAMES J. BEASLEY
Of Rochester, New York

"It is really remarkable what Tanlac has accomplished in my case. It has relieved me entirely of indigestion. I never have that distressing feeling any more after eating, and I feel perfectly fine in every way. I will always feel grateful for what this wonderful medicine has done for me and I am only too glad to give it my heartiest endorsement."

Tanlac is sold in Bismarck by Jos. Breslow, in Driscoll by N. D. and J. H. Batette, in Wing by H. P. Hourigan, in Strasburg by Strasburg Drug Co., in Stratton & Bapp, Regan.

SCHOOLS ENTER MUSIC CONTEST

Minot, March 14.—Four towns have entered in the northwestern district music contest to be held at the Minot Normal April 8-9. Lucy has entered a piano soloist, whistling soloist and probably a boys glee club. Harvey has a cornet soloist. A girls sextet, mixed quartet and boys choir has been entered from Fessenden. Granville will send two violin soloists, clarinet soloist and cornet soloist. Minot is expected to enter a large number, including the well-known high school orchestra. The winners in the district contest will go to the state contest to be held at the University of North Dakota about two weeks later.

FIVE IRISHMEN TO BE HANGED

Dublin, March 14.—Five young men were sentenced to be hanged for the ambush at Grumongla in February.

Dickinson, March 14.—W. F. Burnett is the new president of the Dickinson Town and Country club. The other officers are: Frank Ray, vice-president; John Reuter Jr., secretary; William Kostelky, treasurer; F. L. Roquette, chairman greens committee, and Mrs. A. P. Nachwey, chairman house committee.

REORGANIZE COMPANY. Beach N. D. March 14.—Morris & Mathison have been re-organized under the firm name of Beach Motor Company. C. J. Nelson has succeeded S. R. Morris in the business.

GOES TO JAMESTOWN. Valley City, March 14.—H. H. Jensen, who for 11 years has been connected with C. C. Chaffee & Co. and the Marblestone Co., has returned to accept one with Zimmerman Brothers, at Jamestown.

ELITE WEAR COTTON. Boston, March 14. Society leaders here are wearing cotton stockings and low heeled walking shoes. Some mean men say cotton stockings are the vogue because skirts are longer.

GAS FUMES NEARLY FATAL. Fargo, March 14.—Oh Johnson, who was found under his automobile in the garage overcome by the gas fumes, from the engine which had been running, charging the battery, recovering. He was unconscious for 36 hours. His physician declares that if his wife had not found him as soon as she did he could not have been saved.

PRISON OF MANY HUES. New York, March 11. Cells in East View penitentiary are being painted in tints of blue, brown, yellow, green and pink. Each prisoner selects his own color. Warden McClellan says he is doing it for psychological effect.

LIFT QUARANTINE. Sheldon, March 14. The quarantine has been lifted from the schools and churches here, as the mild epidemic of smallpox and scarlet fever was abated.

HERE'S A NEW DRINK. Chicago, March 14. "Coffee-ach" is the newest drink discovered by prohibition officers. It is a mixture of moonshine and coffee with a 65 per cent kick. The latter part of the name is derived from the effect on the drinker.

RESOURCEFUL FORGER. London, March 14. English forger, jailed here, made ink out of dust. Pulled a straw out of his cell mattress and whittled it into a pen. Then wrote a message to his wife. "Most resourceful forger on record," Scotland Yard detectives say.

Easter Fashions for Milady's Approval

SUCH a wealth of novel ideas is to be found in the new Suits, Frocks and Coats for Easter wear that we actually do not know upon which to lay greater stress.

There's an unusual distinction in the new models—The elaborate conceptions as well as the more severe-tailored designs. You will like the new shades as well as the artistic trimming treatment. And what is vitally important is the fact that prices are decidedly lower than a year ago.

CERTIFICATE OF VALUATION

New York, N. Y., Feb. 18, 1921
To the Grand Lodge of the Ancient Order of United Workmen of North Dakota.

Gentlemen: We have completed our computation of what the aggregate of the reserves would be, by the American Experience Table and 4 per cent interest, being the aggregate of the usual individual tabular reserves on that standard according to the Select and Ultimate method, and we find that the aggregate reserve so computed is \$2,167,276.60. As your other liabilities on Dec. 31, 1920, were 133,557.55, this makes a total of \$2,300,834.15 as against assets of \$2,446,615.91, leaving a surplus of \$245,782.36 and giving a percentage of solvency of 111.167 per cent. Respectfully submitted, Miles M. Dawson & Son Consulting Actuaries.

WHY STICK IN THE MUD?

When agitation for good roads began some years ago there was intense opposition. Scores of arguments against embarking on an extensive road building program were advanced whenever an extension was suggested.

Times have changed. No one argues against good roads. No one can deny they benefit all classes of people, all classes of trade, the farmer and the business man. No one can defend the wasteful system of pouring gold dollars on a poor road—it is much like filling up the sea with sand. Why, then, should we continue to stick in the mud?

Lack of initiative perhaps is the greatest cause; lack of concentrated effort to accomplish the building of a good roads system. The North Dakota Good Roads Association is the key to the situation. There is an organization through which all the good roads enthusiasts can center their energies, an organization which will consistently and continually strive to arouse us all from our lethargy. The association asks your support this week. And this week is the time to give it.

FOOD AND NO FOOD

American housewives propose to do without some of the food they otherwise would place on the table so the starving of China may eat.

American farmers are gazing with sad eyes upon a bulging corn sheds and grain elevators. They are faced with a problem of disposing of surplus food in a land that has too much food.

American housewives mean well in their self-denial movement. But self-denial isn't necessary. There is food, plenty of it, for China's famine-stricken. The trouble is this—the food is in American warehouses and the starving are in China.

The problem is to get them together. Obviously the starving cannot be brought to the food. The food must be taken to them.

Farmers themselves have started corn gift clubs, and have sent carloads to the Pacific. Smaller American meals won't help get those carloads overseas.

What China needs more is a sudden and heavy pouring out of dimes and dollars. These will get food to China.

There's plenty of food for us at home, at every meal, and still a surplus large enough to drive off the wolf of hunger in China if—

There are dollars enough to get the surplus over here.

SPOONING OF THE SPOONERS

Every so often somebody rediscovers the impossibility of halting the sun in its wild flight through space. Other wise ones learn the disadvantages of butting one's head against a stone wall, and the futility of opposing an irresistible force.

Enroll among these wise persons Sheriff Knott of New York.

Knott will not interfere with the course of true love in the city's parks nor upon the streets, nor upon the front porches.

"Let the spooners spoon," retorted Mr. Knott when sundry goodly Puritans complained against spooning in parks, on streets, public vehicles and front porches.

Now, why, you may ask, should spooners be permitted to spoon.

Sheriff Knott dug up a mighty fine reason: "They always did. They always will."

Who?

The sheriff answers:

"Everybody."

That makes it about unanimous.

Everybody who isn't spooning now did spoon when he (or she) was younger, or will when he (or she) gets older.

WILL COIN "IRON MEN"

Soon Uncle Sam will resume his task of turning silver bullion into "iron men." The 1921 silver dollar will be the first placed in circulation since 1905.

These coins are authorized under what is known as the Pittman act of 1918. Under that the secretary of the treasury was authorized to break up and sell 350 million silver dollars. That was during the war when Great Britain needed a lot of silver for use in India.

The same act provided that enough silver should be purchased to replace the dollars broken up and sold.

The law provided that the government should pay a dollar an ounce for this silver, though the market price right now is but about 60 cents.

These new silver dollars will be coined in the

Philadelphia mint, and they will be circulated through the banks. While they are bright and shiny it is possible that people will carry them around, but it seems there is an aversion to them, the public much preferring paper money, so it is very likely that as time goes on the 1921 dollars will complete the circle and land back in the United States treasury again.

UNITED STATES AMERICA

"U. S. A." inscribed on an article purchased by a citizen of America, sojourning temporarily in London, means a great deal to said American, but it doesn't mean anything to an Englishman.

In fact, "U. S. A." doesn't mean anything to the eyes of those the American manufacturer would like to impress.

Ansels R. Clark of the United States Bureau of Foreign and Domestic Commerce, in Mobile discussing "How manufacturers can engage in foreign trade," said that "U. S. A." might mean "Union of South Africa," or anything else.

He cautioned exporters to place "United States America" on the manufactured articles sent from this country to foreign lands.

THE STATE OF LINCOLN

A new state—Lincoln—may be placed on the U. S. A. map if congress views with favor the Idaho disunion petition, proposed in the Idaho legislature.

Northern Idaho has asked the Legislature of that state to memorialize Congress in behalf of a new state, which is to include the Idaho panhandle, and possibly the western portion of Washington. The petitioners want the new state to be named Lincoln.

Spokane and Lewiston are suggested as possible locations for the capital.

Just recently the Pocatello chamber of commerce gave its approval to the new state movement. This is the first time it has met with favor in southern Idaho.

The northern part of Idaho is closely connected with Spokane, more closely, in fact, than Spokane and eastern Washington are in touch with the western part of that state.

If there is to be a new state no better name could be given it than Lincoln.

WHEN YOU JUDGE A MAN

Knut Hamsun, Norwegian novelist, dramatist and poet, is known now as the winner of the Nobel Prize for literature in 1920.

Once he lived in America. He was unknown. He worked on a horse car in the Halstead street line in Chicago.

One who knew him then says now: "I still remember his chapped, red wrists, where his coat-sleeves forgot to meet his mittens. Such a dreamer! The passengers used to get mad. He would forget to pull the rope. They missed their corners."

One can imagine what those passengers thought of Knut.

A stupid fellow!

No brains!

A block-head!

What was the conductor thinking?

The answer to that question is suggested by his later achievement.

It isn't safe to judge a man's mental capacity by the condition of his clothes, or by the nature of the job he holds.

What is going on in the head of the street car conductor with whom you are vexed, and whom you may chance to think is stupid?

With Coolidge in the chamber a summer session may not seem so warm to the Senate.

That noise you hear is not from the boiler factory; the tariff tinkers are busy again.

The sea monster found off Miami makes the old New Jersey sea serpent look like a sardine.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

A MODERN DU BARRY

Mrs. Jake L. Hamon's outburst against Clara Smith Hamon, at the outset of the latter's trial, is a reminder that such killings are not personal affairs between the parties and that it is not a question of deciding the relative degrees of blame of the man and the woman in the case. The widow represents the state, whose dignity has been outraged by a homicide, and the trial is to determine whether it was a murder as charged.

Clara Hamon was no better than Jake Hamon. It is a good thing for public morals, being a restraint on such derelictions, that it is hard to break up such illicit relations than to begin them. The irregular attachment of that sort which refuses to be shaken off, serves as a warning to others, not to get caught in the same kind of trap. But the state will not sanction a wrong to avenge another supposed wrong, particularly when both parties are offenders. That the woman is the one finally brought to answer to the law ought not to arouse any false feeling of sympathy, for she is not on trial for her account with Jake Hamon, but with the state.

Clara Hamon led the life of a modern Du Barry. As the French revolutionists manifested little sympathy with Du Barry, but put her to death, so there is no occasion for sympathy with Clara Hamon, if the evidence establishes a case of murder in the first degree. —St. Paul Pioneer Press.

THE MERRY-GO-ROUND

SEED FUND OF MILLION READY FOR N. DAKOTA

State Farm Bureau Federation Assists in Distribution

LOCAL COMMITTEES ACT

Bill of Senator Gronna Provided Two Million for Two States

Fargo, N. D., Mar. 14.—One million dollars will be loaned to farmers in drought-stricken areas of North Dakota of the \$2,000,000 appropriated by Congress to be loaned to farmers for the purchase of seed, the balance being appropriated to Montana, according to information received at the office of the North Dakota Farm Bureau Federation in Fargo.

The fund will be administered by C. W. Warburton, agronomist with the bureau of plant industry, who was expected to arrive in Fargo with two assistants Monday. Headquarters for the two states will be maintained in this city. President U. L. Burdick has tendered the use of the state farm bureau office here to Mr. Warburton.

These loans will be made through the county agents, according to information received from Congressman George M. Young, and farm bureau executive committees will act as advisory committees for the county agents in the farm bureau counties. No information has been received as to how the fund will be handled in counties having no county agent.

The bill making the appropriation, which was introduced by Senator Gronna, provides:

"That the secretary of agriculture is hereby authorized, for the crop of 1921, to make advances or loans to farmers in the drought-stricken areas of the United States, where he shall find that special need for such assistance exists, for the purchase of wheat, oats, barley and flaxseed for seed purposes only, to procure such seed and sell same to such farmers. A first lien on the crop to be produced from seed obtained through a loan, advance or sale made under this section shall, in the discretion of the secretary of agriculture, be deemed sufficient security therefor. The total amount of such advances, loans or sales to any one farmer shall not exceed the sum of \$300.00."

The proposition of applying for federal aid for drought-stricken areas was first introduced at a farm bureau meeting held at Minot last January when a resolution introduced by M. O. Hall of Minot was unanimously adopted.

CHARITY

By Berton Braley
There's a poor little woman just over the way
Who sits in her window and sews the whole day.
From dawn until darkness she sews and she sews
Embroidering pattern on daintiest hose.
Her toil and her poverty just seem to wring
My tenderest heart-strings. And since that is true
My course is made clear, there's but one thing to do;
So I'm packing my stuff and I'm moving, today,
Where I won't be seeing her over the way.
The poor little woman just over the way.

Her form is anemic; it's evident that
Her food's not the sort that makes anyone fat,
And I think, as I watch her, how fine it would be
If she could be sent to the mountains or sea
To bask in the sun and to rest in the air
And get back her color and comeliness there,
A rest would do marvels, you mark what I say,
For that little woman just over the way.

It's sad to glance over and watch her; my eyes
Grow misty with tears as I sit and surmise
How harsh life must be for that poor little thing;
Her toil and her poverty just seem to wring
My tenderest heart-strings. And since that is true
My course is made clear, there's but one thing to do;
So I'm packing my stuff and I'm moving, today,
Where I won't be seeing her over the way!

asking for federal aid for the purchase of seed by farmers in the dry areas.

Where Farm Bureau Acts.
Counties in the state in which the local farm bureau will function in distributing the funds include Bottineau, Hettinger, Divide, Mountrail, Pierce, Slope, Ward, McKenzie, Morton, McLean, Grant, Kidder, Mercer, Golden Valley, Emmons, Williams and western Sutsman. Renville and Burleigh counties have farm bureau organizations but no county agents, and the other counties in the drought-stricken area, which have no county agents, include Bowman, Oliver, Burke, McHenry, Rolette, Sioux, Dunn, Billings, Sheridan, Stark, Logan, Adams, and McIntosh. All of the farm bureau counties have wired their congressmen for federal aid.

It has been calculated that the fund of \$1,000,000 will provide seed loans for more than 3,200 farmers of North Dakota if each secures the maximum allowance of \$300.

LEAVES WASHINGTON.

Washington, Mar. 14.—Senator Ladd's latest information from the department of agriculture is that C. W. Warburton left Washington Saturday

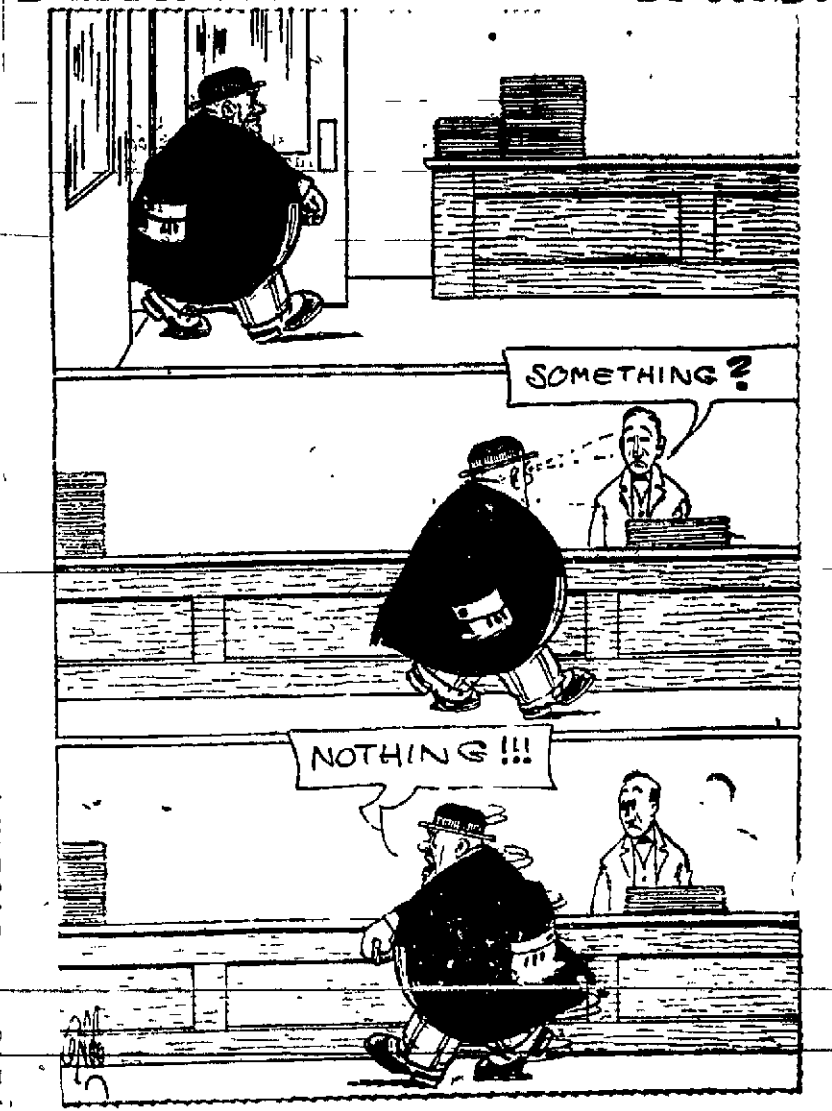

noon for the west to take charge of field operations in connection with the distribution of the seed fund. Mr. Warburton will arrive at Fargo Tuesday evening and will immediately take steps towards organizing his field forces county agents will give the widest publicity as to the filing out of application blanks Mr. Warburton has full authority to approve the applications also to issue checks for the purchase of the necessary seed the department of agriculture has requested Senator Ladd to urge the farmers to submit all inquiries to the county agents so as to expedite matters and relieve the head office of all unnecessary detail.

Stuck In Snow Drift.

Dr. Livingston, Minot dentist, drove to Kansas City in his automobile three weeks ago. Returning he hit a snow drift about two miles from Bismarck yesterday, and had to return home on the train. Dr. Livingston said that the same blimy spring weather that prevailed here was evident all along the route, and at Omaha roses were in bloom and lawns were being mowed.

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath. Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c.

CRABBE MAKES SIX RECORDS WITH JERSEYS

Fargo Man's Dairy Herd Captures Many State Championships

Fargo, Mar. 14.—Out of the first eleven Jerseys to finish year's test at South Park Farms, owned by Sam M. Crabbe, Fargo, six have become state champions for their ages, and one qualified in addition as the highest producing Jersey cow in the state, and other the seventh Jersey of this herd finished second in the class for her age.

The conditions under which these cows were tested were not always favorable, frequent changes of milkers during the year being necessary, many of whom were inexperienced.

Champion Yearling.
Sunflower's chance is awarded the championship honors in the yearling class for the state of North Dakota. She was started on test at one year and eight months of age, and produced 7,513 pounds of milk and 442 pounds of butter-fat. She is by Countess' Lad's Knight and her dam is Marjoram's Sunflower.

Financial Noble Bess qualified as the senior two-year-old champion. She produced 7,106 pounds of milk and 491 pounds of butter-fat, starting test at two years and six months of age. She is sired by Financial Fern Fontaine, and out of Noble's Angela's Bess.

Leads Four-Year-Olds.
At four years of age Challenger's Relay was started on test and produced 10,992 pounds of milk and 608 pounds of butter-fat, entitling her to the leadership in the junior four-year-old class in this state. Her sire is Ophelia's Challenger and her dam is Midshipman's Reminder.

Marjoram's Financial June produced 9,387 pounds of milk and 464 pounds of butter-fat making her the champion senior four-year-old Jersey. She was started on test at four years and six months of age. She is by Goldwin's Financial and her dam is Marjoram's Louise.

The championship laurels for cows twelve years and over at the start of test is awarded to Benedictine Bell, whose test was started at thirteen years of age. She produced 8,362 pounds of milk and 367 pounds of butter-fat. This is a very creditable performance when it is considered that most dairy cows have passed on to "Cow Heaven" before reaching this advanced age. She is an imported cow, sired by Benedictine's Jockey, and her dam is Jersey Harvest.

AT THE MOVIES

Tom Mix does some more hair-raising stunts in his latest William Fox picture, "The Road Demon," which will open at the Bismarck theater Wednesday night.

Mix's famous horse, Tony, has a rival in "The Road Demon," because Tom uses a racing car for many of the thrills and daredevil escapades. But Tony is there just the same, and will do his usual best to help Mix entertain. The big part of the story hinges on two big auto races. It is comedy, too, and of the liveliest sort. Cleito Anderson is Mix's leading woman in "The Road Demon."

SEVENTY-EIGHT ENTER
All Slope Towns Represented in Elaborate Initiation Ceremonies

The Dickinson Lodge No. 1137 B. P. O. E. is now the third largest in the state. The class of 78 towns initiated last week brought it up to fourth place. The membership of the lodge is now about 800. Elders from 11 parts of the Slope and even from out of the state were present at the big initiation ceremonies last Monday.

Stand Behind it.
Large delegations went here from Kilduff, Dunn Center, Wilbur, Bismarck, Dickinson, Taylor, Glendon, South Hill, Bellevue, Watona, Sentinel, Battle Beach, Glendive, Bowman and New England.
The general committee in charge of the ceremonies were: J. W. Sturgeon, chairman; D. E. Cuthbert, Dr. C. C. Jackson, Victor H. H. and C. C. Turner.
Secretary C. C. Turner, assisted by Lyle B. Verry, spent a busy day and did other duties of the lodge.
